The Office of the Public Counsel (OPC) represents and protects the interests of the Missouri public in cases before the Public Service Commission (PSC), and in appeals of PSC orders (see 386.700 and 386.710 RSMo). This NDI will change the OPC's funding source by removing OPC from General Revenue (GR) and establishing OPC's funding through the Office of the Public Counsel Fund. The Office of Public Counsel Fund is to be funded through assessments on Missouri's public electric, gas, water, and sewer utilities (see 386.720 RSMo) beginning with Fiscal Year 2027.

SB79 passed in 2025, requires qualified membership organizations providing a contract for health care benefits to utilize the services of a third party administrator. The Insurance Divisions will be required to receive and review complaints and inquiries from members of any qualified membership organization.												
The legislation requires the qualified membership organization to pay a fee equal to one percent of the Missouri claims paid during the preceding year. Additionally, there is a \$250 registration fee and a renewal fee of \$250 every five years. The department believes the fees paid in proceeding years by qualifying agencies or current revenues will provide sufficient support for the increased workload for the division.

The Insurance Divisions are in need of additional appropriation authority and FTE to support outreach and education. The Insurance Divisions are dedicated to proactive community outreach, providing essential education on the significance of insurance and available coverage options. Given the escalating frequency and severity of storms and natural disasters, this educational initiative is increasingly vital for fostering community resilience and preparedness.												
The recent severe weather impact revealed troubling insurance gaps even within well-developed markets. In St. Louis, which faced high tornadic activity in the first half of 2025, preliminary estimates suggest up to 90% of renters and 67% of homeowners lack adequate insurance coverage in certain metropolitan areas.												
Additionally, in response to the growing demand for data from the General Assembly, media, and the public, the Insurance Divisions intend to establish a robust framework for regular collection and publication of data. This will not only enhance transparency for external stakeholders but also empower the Divisions to make data-based decisions that are traceable, repeatable, and verifiable, ultimately leading to improved operational efficiency and informed policy development.

Additional personal service (PS) appropriation authority and FTE are needed for the insurance divisions. With additional team members, the department will be able to accept and review more applications from special purpose life reinsurance captives (SPLRC), bringing billions of dollars of assets and premium revenue back to Missouri from offshore jurisdictions. Each SPLRC generates premium taxes and fees of up to \$200,000 annually, 90% of which goes to General Revenue. In addition to the increased revenue, the formation and operation of these companies increase economic activity in Missouri for banks, attorneys, service providers, and Missouri residents employed by these entities.												
Surplus lines insurance tax, which goes to General Revenue, has increased by 103.3% (from \$39.3 million to \$79.9 million) from 2020 to 2024. Calls and emails handled by staff have increased by 73.8% from 2020 to 2024. The number of licensed surplus lines insurance producers has grown by 43.8% (from 2,092 to 3,009) over the same four years. An additional team member is necessary in order for the department to continue to be able to audit the tax filings of surplus lines insurance producers in a timely fashion.

Current personal service (PS) appropriation authority for the Division of Finance (DOF) does not allow DOF to achieve compliance with §361.170.3 RSMo, which provides that DOF examiners, professional staff, and support personnel shall be compensated on an equitable salary schedule that is comparable to similar Missouri based positions at federal banking regulatory agencies, not to exceed 90% parity. This statutory requirement ensures that DOF can attract and retain qualified, experienced, and competent examiners and team members. These attributes produce reliability and consistency to instill confidence in both citizens and the industries we oversee. Present compensation for DOF examiners compared to examiners of the Federal Deposit Insurance Corporation (FDIC)-Kansas City Region and the state's two federal reserve banks ranges from 68% to 87% parity, with an average parity of 76%. Although average parity has improved 12% since 2020, through DOF's use of surplus PS and statewide cost of living adjustments/time of service differential, there is not a single DOF position that complies with the statutory mandate of 90% parity. DOF's five year cumulative turnover rate is 29.4%, with eleven employees leaving DOF employment for federal agencies or private sector during that same time period.
